The lasting impression left by an advertisement on the reader's mind is the thing that counts.

People go into stores to purchase articles which they have seen uniquely advertised perhaps a year before. Good lasting impressions count heavily toward success.

USUALLY COST THE LEAST

When you are tempted to buy a so-called "bargain" in a cheap watch or article of jewelry, remember this: In the long run, it always costs less to buy QUALITY.

Genuinely fine merchandise of KNOWN value . . . bearing the names of reputable makers . . . is now offered to you at the lowest prices in years. And if you want to be really economical, FINE merchandise is the only kind you can AFFORD to buy.

The impression that we are “well known” or  
that “everybody knows us” is a common  
fallacy of the mind. Experts have studied  
the actual facts by practical questions aimed  
at the public. Their finding is this: The best  
known business man is only one-half as well  
known as he thinks he is.

Do not let this fallacious reasoning take a toll  
from YOUR business—advertise it.

# PREFACE

---

The Thirtieth volume of the City Directory includes the towns of Manchester and Essex. Names in the towns in the Beverly district are enumerated with the same door-to-door care as the city and taken in alternate years. The net population of Beverly shows an increase as indicated by additional matter taking approximately 495 lines in the new volume in excess over the last issue and the general directory contains 52% new or changed matter as compared with the previous issue. In the street directory of Beverly and the towns a special indicator (⊙) marks property owners—a new feature this year, also the locations of all telephones are shown by an asterisk (\*).

Separate Maps of Beverly, Manchester and Essex are included with this volume.

The publishers acknowledge their indebtedness to all who have supplied information and to the advertisers whose patronage assures the city of its annual directory service.

CROWLEY & LUNT.

The lasting impression left by an advertisement on the reader's mind is the thing that counts.

People go into stores to purchase articles which they have seen uniquely advertised perhaps a year before. Good, lasting impressions count heavily toward success.

CROWLEY & LUNT'S  
CITY OF BEVERLY  
STREET AND HOUSE DIRECTORY  
1933

Giving the location of the streets, places, parks, etc., and showing what other streets and places run from them or across them, with the point at which they intersect. †The system adopted for numbering the streets of the city is that a person starting at the beginning of any street and following along with the numbers, every even number will be on the left and every odd number on the right hand, with the names of heads of families and persons in business in the order of location.

The cipher (0) is used to designate houses or buildings without numbers. The dash (—) is used to show where connecting streets and avenues cross or intersect, when such intersections or crossings have no number, and also to designate railroad crossings and bridges, parks, etc.

When there is more than one family in a house, the down stairs name is usually given first.

Abbreviations: Ave., avenue; byd., beyond; groc., groceries; jct., junction; n., near; opp., opposite; r., rear; rep., repairing; smr., summer; s. r., summer resident; var., variety; etc., etc. Houses having erroneous numbers are sometimes enclosed in parentheses (—).

\* Indicates telephones.  
† Exceptions to this rule occur occasionally.

## YOU MUST KNOW HOW TO SPELL IT

To find a name in the Alphabetical Directory which follows, a good knowledge of spelling is essential. To assist you, however, many cross references are given, through the reading matter, thus:  (See Johansen, Johnston, etc.) There are six different ways of spelling JOHNSON, and many other names have two to three spellings for the SAME PRONUNCIATION. Some are far apart in the alphabet, such as Ouellette and Willett, pronounced the same. The directory is guaranteed 99½% correct. You may depend upon its spelling.

CROWLEY & LUNT'S

CITY OF BEVERLY

BUSINESS DIRECTORY

1933

Beverly, clean, healthful and beautifully located on the North Shore, with seven miles of the most charming views to be found on this continent, recommends itself to all classes of manufacturers and business men on account of its first-class rail and water facilities and equitable freight rates to all shipping points. Its most steady growth proves it to be the coming city of this part of the Massachusetts coast. With a valuation of nearly \$50,000,000, within its limits are scores of millionaires' and multi-millionaires' palaces. The manufacturing industries comprise machinery, shoes, oil, oiled clothing, iron foundries, mattresses, planing mills, wood and paper boxes, grain elevators, electric works, etc. The shoe industry, established more than a century ago, pays a large annual wage.

The United Shoe Machinery Corporation occupying one of the largest reinforced concrete factory plants in the world and employing 5,000 mechanics, pays a wage of over one and one-half millions per year. The Gulf Refining Company has its New England terminal here and docks its fine steamships running from Port Arthur, Texas. Spur tracks of the Boston and Maine Railroad connect with all the wharves. Population of Beverly, 1933, estimated about 30,000. Eighteen miles from Boston on the Boston & Maine Railroad; Eastern Mass. Street Railway connections to all nearby points. Superior harbor. Three banks. Daily newspaper. Excellent fire department. Good sewers. Super-lighted streets. First-class public schools. Good hotels and theatres. Public school playgrounds costing over \$50,000. Modern bath house at Oceanside Park.

NOTE:—It has been found essential (as a general rule) to insert names of firms under the ONE heading only which best represents them, except in the case of patrons, when extra insertions are sometimes made.

## Early History of Directories

Many centuries ago, long before we had Directories, it was the custom of persons having goods for sale to stand on the street corner and tell the passers-by of their wares. The stranger looking for his friend searched from house-to-house or in the market place, crying his question until some one answered. Next came the Town Crier who, hired to seek and give information, wandered through the highways and byways ringing his bell and crying "Hear ye, Hear ye" until his mission was completed. With the growth of population this picturesque service became unsatisfactory and expensive and was abandoned for information regarding the community, gathered at stated intervals. And then, with the invention of the printing press, came the publishing of this important data!

## FIRST DIRECTORIES

The very first Directory issued in book form was published in 1595—in London, England—during the reign of Queen Elizabeth. This interesting book, containing only the names of such “Gentlemen” as the publishers thought fit, was entitled: “The names of all such Gentlemen of Accompts as were residing within the City of London.”

Just 137 years later (1732) the first publication bearing the name “Directory” was issued in London. One of the chief difficulties of Directory publishing at this early period was the lack of house numbers, and because of this many houses were known as “The Black Bear,” “The White Swan,” “The Six Golden Lights” — or on such and such a road, next door to the goldsmith’s. House numbering did not become general until 1800. Difficulties had to be overcome gradually until the present system of street and house numbering was evolved.

The Directory publishers have always been of great assistance to the authorities in the house numbering problem.

## FIRST DIRECTORIES

The very first Directory issued in book form was published in 1595—in London, England—during the reign of Queen Elizabeth. This interesting book, containing only the names of such “Gentlemen” as the publishers thought fit, was entitled: “The names of all such Gentlemen of Accompts as were residing within the City of London.”

Just 137 years later (1732) the first publication bearing the name “Directory” was issued in London. One of the chief difficulties of Directory publishing at this early period was the lack of house numbers, and because of this many houses were known as “The Black Bear,” “The White Swan,” “The Six Golden Lights” — or on such and such a road, next door to the goldsmith’s. House numbering did not become general until 1800. Difficulties had to be overcome gradually until the present system of street and house numbering was evolved.

The Directory publishers have always been of great assistance to the authorities in the house numbering problem.

Street and House Directory

1933 - '34

Giving the location of the streets, places, parks, etc., and showing what other streets and places run from them or across them, with the point at which they intersect.

The cipher (0) is used to designate houses or buildings without numbers, showing the names of heads of families and persons in business in the order of location. The dash (—) is used to show where connecting streets and avenues cross or intersect, and also to designate railroad crossings, bridges, parks, etc.

When there is more than one family in a house, the down-stairs name is usually given first.

Abbreviations: Ave., avenue; byd., beyond; groc., groceries; jct., junction; n., near; opp., opposite; r., rear; rep., repairing; smr., summer; s. r., summer resident; var., variety; etc., etc.

\* Indicates telephones.

⊙ Property ownership (recorded on village property only, not on country roads).

Spelling IS Important

The United States Government has found it costly and wasteful of time to misspell proper names. Cases have been obliged to pass twice through the Senate for the simple error of spelling a first name wrong.

GIVE YOUR CUSTOMER, OR CORRESPONDENT THE COURTESY OF CORRECTLY SPELLING HIS OR HER NAME. FIND IT IN THE CITY DIRECTORY.

We bring to you a most cordial Greeting

BENJAMIN F. RAYMOND

We have properties with Old Colonial Houses and Cool Pine Groves — Properties by Lakeside, Riverside and High Mountainous Hills.

### DEPT. PUBLIC WELFARE

Town of Great Barrington,  
Massachusetts

owley & Lunt,  
verly, Mass.

Aug. 9, 1933.

ar Sirs:—

(Quoted in part)

“ . . . It is very necessary for this and the State Dep't. of Public Welfare to establish definitely the residence of \_\_\_\_\_ 1929, so that financial responsibility of aid rendered can be fixed being either Great Barrington, where they now are, or New Marlboro, where it appears they were at that time. . . . using the South Berkshire Directory for authority in above case.

Very truly yours,

Public Welfare Dep't.

Note: The above letter is on file, as one of many in which towns and cities are aided in placing residence (legal) in welfare cases. The South Berkshire Directory is their greatest aid.
